Re: St. Regis Mountain Fire Tower and the  
St. Regis Canoe Area Unit Management Plan

Dear Commissioners:

We are writing to request that the St. Regis Canoe Area Unit Management Plan be permanently altered so that the St. Regis Mountain Fire Tower can be restored and remain on the summit of St. Regis Mountain in Franklin County.

Previous communications have outlined our intentions for restoring this historic landmark. Enclosed is a sheet of photos that illustrates the beauty and dignity of this tower. It is our hope that these photos will remind you of the importance of this treasure on St. Regis Mountain and encourage you to keep it from being torn down and allow it to remain in its original location.

We would greatly appreciate your support in changing the current classification of the fire tower on St. Regis Mountain, so it can be saved for future generations. If we can be of personal assistance in this continued process, please feel free to contact us at the above addresses or by phone at (518)-483-3767.

Sincerely,
