## Forest Fire Lookout Association
## New York State Chapter
## November 2026

We will begin this month's newsletter with our Facebook photo contest winner, this photograph submitted by the Friends of St. Regis Mountain Fire Tower. They captioned the photo of this flight as "*New tower braces and construction equipment flown to the summit of St. Regis. Volunteers on site to move it all into secure storage for the winter. Photo taken November 1, 2018. Brace project completed May 2019.*" I was very pleased that this photograph was submitted and had the most votes. It is a great illustration of partnerships and perseverance. As many may know the St. Regis tower was slated for removal at one time. But the local community had much to say about that. A group of folks who continue to support this tower through that hurdle as well as the restoration, continued maintenance, and partnerships is a perfect example for all to follow. Congratulations!
